

House Intelligence GmbH

We smart-up your home

## Connected in your intelligent home:

- Lighting
- Shadowing
- Entrance
- Security
- Heating

## Getting more comfort, security and energy efficiency:

- Attractive price
- Quickly installed
- Easy to use
- Invisible
- Suitable for new buildings & existing buildings

## More comfort in your home by integrating:

- Lighting (dimming as well)
- Shadowing (shutters, roller shutter, blinds)
- Heating (floor heating system, radiators)
- Entrance (doorbell, door video system, etc.)
- Security (sensors, IP-cameras, simulation of presence)  
Music (e.g. Sonos)

Additional comfort by controlling your home via smart phone and tablet (wherever you are).

## Security in your intelligent home:

Security in your intelligent home can be realized with several devices:

- Smoke detector/motion detector
- Indoor-IP-camera/outdoor-IP-camera
- Automation terminal block  
(integrates the devices into the dS-system)
- Panic button
- Door-/windowsensor
- Door video system (e.g. doorbird)
- Weatherstation and much more

In combination with the apps of dS, all devices are orchestrated together, e.g. when is an alert scenario activated, who is getting a push notification, what shall happen in such a scenario, etc.

## Energy efficiency: control/optimize your energy consumption

- Measuring/analyzing your energy consumption
- Integration heating system (floor heating system, radiators)  
e.g.: Starting into the holidays, turn down the temperature – before coming back, return to the right temperature in your home
- Integrating alternative energy sources (e.g. Photovoltaik)  
e.g.: your system detects 100% sun and starts the washing machine automatically
- Configuration of energy saving scenarios
- „Leaving-button“ – when leaving your house, press it and all electrical devices are shut down (except e.g. the fridge)

## Our services for your demands:

- Information
- Consulting
- Planning
- Installation
- Configuration
- Activation
- Upgrade
